ELECTRONICS TECHNOLOGIES

## FLEET TRAINING SEMINAR

### Blender for Beginners: How to create your first science 3D animation

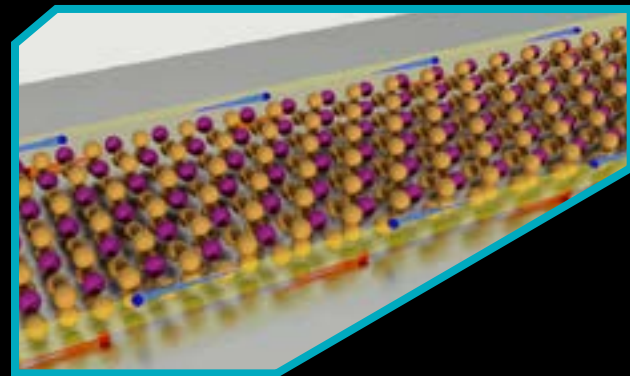

#### IOLANDA DI BERNARDO

Women in FLEET Fellow  
Monash University

Iolanda will take you through how to create your first science 3D animation using free software Blender. She will work alongside you (virtually) to use the features of Blender to draw and render an animation.

There will be an online poll prior to the session to determine what to render.

**Requirements:** Please download and install Blender version 2.78. You will also need a 3-button mouse.

Registration is free but required. Register [here](#). A zoom link will be sent after registration.

This session is open to FLEET members and affiliates only.

**DATE:** Wednesday 3 June 2020  
**TIME:** 11:00 AEST  
**INFO:** [education@fleet.org.au](mailto:education@fleet.org.au)
