

FLEET

ARC CENTRE OF EXCELLENCE IN
FUTURE LOW-ENERGY
ELECTRONICS TECHNOLOGIES

FLEET Landing

10:30 AM 28 May 2024

Collaboration Lounge, New Horizons Centre, Monash Clayton

FLEET.org.au/Landing

#FLEETLanding

JOIN US  at a special event celebrating seven years of the ARC Centre of Excellence in Future Low-Energy Electronics Technologies!

Since June 2017, FLEET has been dedicated to sustainably extending the information technology revolution into the future by developing energy-efficient electronic technologies.

Through collaborative efforts and ground-breaking research, we have made substantial contributions to scientific progress and the advancement of electronic technology. FLEET's impacts extend beyond the laboratory, changing the culture of STEM research and education, sharpening the focus on sustainability of information technology, and training tomorrow's innovators.

We are excited to share with you the impactful outcomes of FLEET and celebrate the contributions of our researchers, partners, and collaborators.

During the event, we will highlight key achievements across six impactful areas:

Knowledge advancement

Sustainability focus

Capacity building

STEM Education & outreach

Innovation beyond the laboratory

Leadership in workplace culture

Please **RSVP at FLEET.org.au/Landing by 7 May, 2024** to confirm your attendance. We look forward to celebrating with you and expressing gratitude for your invaluable support and collaboration throughout the FLEET project.

JOIN US  as we reflect on FLEET's journey and the significant strides we have made together in shaping the future of electronic technology research in Australia and beyond.

Please **RSVP** at FLEET.org.au/landing by **7 May, 2024** to confirm your attendance. We look forward to celebrating with you and expressing gratitude for your invaluable support and collaboration throughout the FLEET project.
